

EE313

Please fill out the following module assessment as honestly as possible.

Note: A mark of 5 signifies satisfaction whereas 1 signifies dissatisfaction with a statement.

1) The resources for this module are adequate? (course material suitable, sufficient, easily accessible, sufficient tutors in tutorials, library books adequate, lectures and module are well organised etc.)

1 2 3 ④ 5

2) The recommended texts for this module are appropriate? (suitable for the level and content of the module, easily accessible through the library or bookshop, reasonably priced, useful)

1 2 3 ④ 5

3) The applications and examples are good? (sufficient examples given in lectures, handouts, homeworks, texts etc. Examples helped to explain the concepts and help to practice required skills)

1 2 ③ 4 5

4) The objectives of this module are clear? (you clearly understand what ideas and skills you are required to learn on this module)

1 2 ③ 4 5

5) The prerequisites are appropriate? (You were adequately prepared for this module by passing the prerequisites, if any. The lecturer suitably covers any background knowledge required, but not covered by the prerequisites)

1 2 ③ ④ 5

6) The lecturer assists your learning? (communication is good, lecturer encourages you to learn the concepts and skills of the module, stimulates your thinking)

1 2 3 4 ⑤

7) Rate the learning experience that you have gained from the lab session exercises.
(5=very beneficial, 1=no benefit at all)

1 2 3 4 5 No Labs

8) Rate your understanding of the material? (5=complete comprehensive understanding, 1=lost cause)

1 2 ③ 4 5

9) What percentage of lectures do you attend? 30%

10) What percentage of tutorials do you attend? 30%

11) How many hours per week do you actually spend studying for this module? 1-3 hr

12) How many hours per week do you think you should spend studying this module? 3-5 hr

Comments:

Please fill out the following module assessment as honestly as possible.

Note: A mark of 5 signifies satisfaction whereas 1 signifies dissatisfaction with a statement.

1) **The resources for this module are adequate?** (course material suitable, sufficient, easily accessible, sufficient tutors in tutorials, library books adequate, lectures and module are well organised etc.)

1 2 3 4 5

5 → lectures great
1 → tutorials not good (unless lecturer present)

2) **The recommended texts for this module are appropriate?** (suitable for the level and content of the module, easily accessible through the library or bookshop, reasonably priced, useful)

1 2 3 4 5

- didn't know what text specified but lots of good books available

3) **The applications and examples are good?** (sufficient examples given in lectures, handouts, homeworks, texts etc. Examples helped to explain the concepts and help to practice required skills)

1 2 3 4 5

5

4) **The objectives of this module are clear?** (you clearly understand what ideas and skills you are required to learn on this module)

1 2 3 4 5

4

5) **The prerequisites are appropriate?** (You were adequately prepared for this module by passing the prerequisites, if any. The lecturer suitably covers any background knowledge required, but not covered by the prerequisites)

1 2 3 4 5

5

6) **The lecturer assists your learning?** (communication is good, lecturer encourages you to learn the concepts and skills of the module, stimulates your thinking)

1 2 3 4 5

5

7) **Rate the learning experience that you have gained from the lab session exercises.**
(5=very beneficial, 1=no benefit at all)

1 2 3 4 5

Not applicable

8) **Rate your understanding of the material?** (5=complete comprehensive understanding, 1=lost cause)

1 2 3 4 5

5

9) **What percentage of lectures do you attend?**

95%

10) **What percentage of tutorials do you attend?**

40%

11) **How many hours per week do you actually spend studying for this module?** 1

12) **How many hours per week do you think you should spend studying this module?** 1

Comments:

Class was very engaging. Assignments were very well laid out and generally very beneficial. Individual assignment work is by far better than group work! Tutorials were not very good. Otherwise this was probably my favourite class this semester.
